

Rugby Goal Post Shifter

Mexteds' Hurri-Shifter goal post lifter is used in conjunction with a turf-tired tractor for the rapid lifting and relocation of rugby goal posts.

This machine offers a fast, safe and efficient system, where rugby posts are clamped, lifted and lowered to the ground, ready for dismantling.

Replacing the posts is just as simple.

Specifications:

Mexteds' Hurri-Shifter—designed and purpose-built by Mexteds.
